/ BRUNEI TIMBER SDN. BHD. /

BRUNEI TIMBER:

PROCESSING HIGH QUALITY TIMBER.

Started in 1985 and located in Tutong, Brunei Timber is a private timberland that focuses on processing and producing high quality timber that are harvested from the approved and designated forest by the forestry department of Brunei Darussalam. We firmly believe in practicing a sustainable farming for a long-term run.

We have extensive years of experience in the processing and treatment of timber. We offer a wide selection of high-quality products that are well sawed which lead to high durability and enhance to its best properties.

TIMBERS AND WOOD PRODUCTS, WE OFFER:

GUARANTEED HIGH QUALITY PRODUCTS FOR OUR CLIENTS.

- ◆ **Softwood** is most commonly used for feature walls to spice up your place, ceilings, furniture, doors, and windows. The versatility of it can create beautiful features for both commercial and residential.
- ◆ **Hardwood** could be used for a range of things from cladding, paneling, buildings, fencing, boats and even outdoor decks.
- ◆ **Sawdust** can be used for charcoal as well as for agriculture and poultry purposes.
- ◆ **Door Frames** are made from timber. Clients can choose from the many existing door frame designs we offer. Door frames are normally used by contractors and developers.

THE ELEGANCE OF WOOD

INTERIOR AND EXTERIOR DESIGNS BY BRUNEI TIMBER.

Have an interest in both interior and exterior design with the focused of wood as the main material? Look no further as we offer both, using wood as the main element to enhance the look of your place. From rustic to right up the most modern, artistic of spaces, it's a guarantee that we could make it customized just for you.

Not only is wood an important material used structurally in architecture, it is also a timeless element in interior design. There are only a few materials that are as versatile and adaptable as wood. Wood design can be used in all sorts of home projects, either it is for something practical or something a little more for decoration. The use of woods extends from small private facilities to large public social and as well as official premises.

Wood are very often used because the way it looks, the varieties of colours and structures are appealing and it could be used as a different interior products that will ensure a pleasing visual of your place.

WE CARE

Brunei Timber is an advocate when it comes to Corporate Social Responsibility (CSR). We practice the act of giving by doing charity and donation for those who are in need. Other than that, we are also open to sponsoring and supporting events with the government.
